PROFILE

Graduate student (24 y/o), recently graduated student in IDx, with a range of skill from 3D printing to rapid prototyping with microcontrollers (Espruino, Arduino etc.). With knowledge in C++, JavaScript and a bit of Python. However, for my design work mostly I focus on tangible interfaces and artifacts, since for me materials are a key component for Interactions.

WORK EXPERIENCE

TEACHER ASSISTANT (IOIO LAB) || MALMO
2024 – 2025

Lab Coordination: Manage deployment and maintenance of electrical boards, Arduino kits, and specialized prototyping tools for the Interaction Design department.

BRINK'S ROMANIA || CONSTANTA, ROMANIA
2023

Inventory Management: Tracked county-wide supplies and coordinated with partner banks to fulfill all their orders.

VOLUNTEERING

FORBIDDEN MUSIC EVENT || MALMO
2026

Designed and built the design exhibition, setting the look and feel of the space, material used and techniques to present the artifacts.

EDUCATION

MALMO UNIVERSITY
2023 – 2026

Bachelor of Science in Interaction Design

BARBU STIRBEI COLLEGE
2018 – 2021

Computer Science licensed degree.

SKILLS

3D Modeling & Printing
Lab Coordination & Assistance
Mentorship
Programming
Rapid Prototyping
Sonic Interaction

HOBBIES

Drawing
Photography
Playing Guitar
Designing very weird MIDI controllers
